ANISHA MISHRA

Linkedin: https://www.linkedin.com/in/kas-anisha-mishra/ **Email:** Anishamishra2207@gmail.com
Github: https://github.com/anishamishra2207 **Mobile:** +917859040045

SKILLS

- **Languages:** Python, C++, Java
- **Data Science & ML Tools:** Pandas, Scikit-Learn, NumPy, Matplotlib, Seaborn, Model Evaluation
- **Backend Development:** Flask, RESTful APIs, JWT Authentication, WebSockets, API Integration
- **Databases:** MySQL, PostgreSQL
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Design, DBMS
- **Tools/Platforms:** VS Code, Eclipse, Git, GitHub, Jupyter Notebook, Power BI
- **Soft Skills:** Communication, Teamwork, Leadership, Analytical Thinking

INTERNSHIP

Data Science Intern – Skillcraft Technology | Certificate — Jul' 25

- Built and evaluated machine learning models on structured datasets using Scikit-learn.
- Performed data preprocessing, feature engineering, and validation to improve model performance.
- Applied model evaluation techniques including accuracy scoring and cross-validation.

  Tech: Python, Pandas, NumPy, Scikit-learn

PROJECTS

Fake News Detection System: — Mar - May' 25

- Built a real-time **NLP-based classification system** using TF-IDF and lemmatization to detect misleading news articles; optimized preprocessing to improve inference efficiency.
- Achieved **85% accuracy** through hyperparameter tuning, cross-validation, and structured model evaluation.
- Deployed the trained model using Streamlit to enable interactive real-time predictions.

  Tech: Python, Scikit-Learn, NLP (TF-IDF, Lemmatization), Pandas, NumPy, Streamlit, Joblib, GitHub

ChitChat – Real-Time Communication System: — Jan - Feb' 25

- Developed a real-time messaging system using **WebSockets to enable low-latency** communication between concurrent users.
- Implemented **JWT-based authentication** and designed PostgreSQL schemas for secure user and message storage.
- Integrated REST APIs with a responsive React frontend for seamless client-server interaction.

  Tech: Python, FastAPI, WebSockets, PostgreSQL, React, Tailwind CSS, JWT

Distributed File System (DFS): — Aug - Sep' 24

- Designed a simulated **hierarchical file system architecture** inspired by operating system structures
- Implemented complete **file and directory CRUD operations** using object-oriented design principles
- Structured modular components to optimize navigation and storage handling

  Tech: Python, OS module, Shutil, File I/O, OOP (Classes & Methods)

CERTIFICATES

- Master Generative AI & Generative AI tools – udemy | **Link** — Jul' 25
- C++ Programming OOPs and DSA – CSE Pathshala | **Link** — Jun' 25
- Social Networks – NPTEL | **Link** — May' 25
- TensorFlow Course – GeeksforGeeks | **Link** — Dec' 24

ACHIEVEMENTS

- Secured Top 10 position in Smart India Hackathon (SIH) 2025
- Secured Top 3 position in the RC5 Republic of Cyber Essential Hackathon 2023
- Solved 300+ DSA problems on LeetCode and coding platforms

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.95*** — *Aug' 23 - present*
- **Mahavir inter college** — Gorakhpur,UP
  Intermediate; ***Percentage: 67%*** — *Apr' 22 - Mar' 23*
- **Santkabir Mahavir Inter College** — Gorakhpur,UP
  Matriculation; ***Percentage: 88%*** — *Apr' 20 - Mar' 21*
